Quiz Instructions

Due to our upcoming virtual classroom situation, I'm trying to anticipate as much as I can. We will discuss more in class March 12. But I have a few quick questions.

Right now, I'm thinking through the challenges I might face in shifting our lectures, discussions, activities, talks, and other work to be fully online, but I don't know what challenges you face.

As I think about our work coming up, I want to be sure to account for any challenges, needs, or barriers you have in relation to online learning. Please respond, if you can, before class tomorrow.

This survey is not graded and it is anonymous. Canvas might pop in points, but ignore them. I repeat...this is ungraded.
